

## **Wetlands Mitigation Calculator Workshop Registration**

**Name:**

**Job Title:**

**Address:**

**Background:** ☐ economics ☐ biology ☐ ecology ☐ other: \_\_\_\_\_

**E-mail:**

Workshop location:

☐ March 1, 2005: Seattle, Washington

☐ March 15, 2005: Silver Spring

### **Suggest a case study to test the calculator:**

The mitigation calculator has a wide range of applications, from individual project permitting, to mitigation banking. We hope to have a variety of real-life situations facing Habitat Conservation field staff to experiment with during the workshop as we explore the potential application of this tool in the context of NOAA Fisheries project review. If you are dealing with defining appropriate mitigation measures in any context, consider bringing your issue to the table.

Do you have a case study you would like to test the calculator on during the workshop?

☐ Yes

☐ No

If yes, please briefly describe the project, the impact the permit seeker was proposing to mitigate for and the regulatory agencies involved in the review - workshop organizers will contact you with additional questions.

For more on the type of case study information that would be helpful to bring to the workshop, see the "Case Studies Guidance" page on this site. For a detailed look at the mitigation calculator, see the paper "Developing Defensible Mitigation Ratios", also on this site:

If you have questions regarding the appropriateness of a case study, or the information needed, call or E-mail Dr. Dennis King at 410-326-2440; [kingassoc@email.com](mailto:kingassoc@email.com).

**Email or mail your registration to: [Kathi.Rodrigues@noaa.gov](mailto:Kathi.Rodrigues@noaa.gov), NOAA Fisheries, One Blackburn Dr., Gloucester, MA 01930 by January 31, 2004**
